#### POTATO YEAST.

Peel and boil six good sized potatoes, one quart of water, one small handful of hops. Sift through a colander, (after steeping the hops) then add one tablespoon of salt, half a teacup of sugar, stirred together.—Keep in a cool place. One cup of yeast. MRS. A. M. M.

#### YEAST.

Grate six large potatoes, four quarts of water, put two quarts on the potatoes, one cup of sugar, and one of salt, one tablespoonful of powdered alum. Boil a handful of hops in the remaining two quarts of water, and when cool enough, add the yeast. Use a coffee cup full of the yeast for three loaves of bread. MRS. H. C. H.

#### YEAST.

Put one handful of hops and two quarts of boiling water on the stove. Beat together four good sized potatoes, grated raw, one cup of flour, one cup of brown sugar, and two tablespoonfuls of salt. Strain hop-water into this mixture, and cook until it is pasty. When cold, add one cup of yeast. Place uncovered in a warm place for two days, then bottle. Miss M. I. W.

#### CORN MEAL BREAD.

One pint of corn meal, one cup of flour, two eggs, a little salt and sugar, one even tablespoon of baking powder, one tablespoon of lard or butter. Mix baking powder, flour and meal together, then break in eggs. Mix quite thin with milk. MRS. M. M. S.

## BREAD.

One quart potato water, two good sized potatoes mashed through a colander, mix one-half cup of yeast with this, and thicken with flour. Before the first moulding add two tablespoonful of sugar, one teaspoonful of salt, lard the size of an egg, and one pint of luke-warm water.

Miss M. I. W.

## BOSTON BROWN BREAD.

One pint Graham flour, one pint corn meal, one pint sour milk, one teaspoonful salt, one teaspoonful soda, one teacup molasses. Beat all together, steam two and a half hours then put into oven and bake a nice brown.

Mrs. W. K. M.

## INDIAN BREAD.

One pint sweet milk, one pint sour milk, one teacup molasses, one quart meal, one pint flour, one tablespoon saleratus.

Mrs. O. M. S.

## GRAHAM BREAD.

To a small bowl of bread sponge put one quart of milk and water, half of each, one large spoon of molasses and one of sugar, one small teaspoon of soda, and one tablespoon of salt. Mix this together and stiffen with Graham flour a little stiffer than cake, let rise like other loaves and bake. Some soft sponge can be saved until next morning by keeping quite cold—if sour add a little soda.

Mrs. G. S.

## ROLLS.

One loaf of dough, mix with it one tablespoon lard, one tablespoon sugar, one egg, a little salt. When light roll out, butter them, fold up, and let stand till very light. Bake in a quick oven.

KEY TO THE CUPBOARD.

## RAISED ROLLS.

One and a half pints warm milk, one cup of butter, one yeast cake, two tablespoons white sugar, two quarts flour, a little salt. Mix in all the ingredients to make a sponge, set in a warm place to rise. When quite light, work in all the flour and set again to rise. When well risen work a little more and roll out. Cut with a biscuit cutter, moistening edge with melted butter and fold together like rolls. Set to rise for half an hour, when quite light, bake in a quick oven, allowing from 15 to 20 minutes.

Mrs. L. B. R.

## BAKING POWDER BISCUIT.

One quart of flour, butter size of an egg mixed with a spoon through the flour, a little salt, two teaspoons baking powder also rubbed through with a spoon, then a pint of sweet milk and finish with your hands. Bake in a hot oven.

Mrs. E. O. M.

---

CREAM BISCUIT.

One quart of flour, three heaping teaspoons Royal Baking Powder, one-fourth teaspoon salt, *mix well*; sweet cream sufficient to make a soft dough. Stir with a spoon until well mixed, then turn out on moulding board and mould lightly until smooth enough to cut out. Bake in a quick oven.

MRS. W. R. S.

## FRENCH BISCUIT.

One quart of flour, one egg, one tablespoon butter, one tablespoon sugar, three tablespoons yeast, a little salt, and sweet milk enough to make a soft dough.

MRS. H. C. H.

## BISCUIT.

Take as much bread dough as you would use for an ordinary sized loaf of bread. Add one-half cup sugar, and butter the size of a walnut, whites of two eggs beaten to a stiff froth. Mould up stiff and let stand to rise. Then mould into small biscuit and let rise once more before baking.

MRS. W. H. D. G.

## WHEAT GEMS.

Two eggs, one pint sweet milk (eggs beaten separately) four tablespoons melted butter, two and a half cups flour, two and a half teaspoons baking powder. Put in cold tins. Bake about twenty minutes in quick oven.

MRS. P. C. E.

## GRAHAM GEMS.

One pint water and milk mixed half and half (all water will do but not as rich) one teaspoon salt, one tablespoon sugar, three teaspoonful baking powder, two eggs. Stiffen enough with flour to drop off spoon into hot gem irons. Bake twenty minutes.

MRS. L. E.

## GOOD FRIDAY BUNS.

Set a sponge consisting of a pint of milk, one-half pound brown sugar, warmed together, half a pint of yeast, make a soft batter. Set a little more than luke-warm about noon. The sponge will probably be light about 6 o'clock. Then take one quart of milk and one and a half pounds sugar, three-fourths pound butter, one-fourth pound lard, warm it all together, three eggs, one ounce pure ground cinnamon. Put in the last two articles when the dough is partly kneaded, (make the buns the size of a doughnut). Keep the dough in a warm place until morning.

MRS. JAS. H. H.

## SALLY LUNN.

Three cups flour, one cup milk, one-half cup melted butter, one egg, one even teaspoon baking powder, one teaspoon salt. Bake in gem tins about twenty minutes.

MRS. L. E.

## BREAKFAST PUFFS.

Two eggs, two cups of milk, two cups of flour. Beat milk, yolks of eggs and flour together, add the whites beaten stiff. Bake in quick oven, in gem irons. Mrs. E. T. F.

## POP OVERS.

Three eggs, three cups full milk, three cups full flour, one teaspoonful salt. Butter the gem pans, have them *very* hot and fill only half full. Bake in quick oven. Miss S. E. R.

## GOLDEN MUFFINS.

One pint flour, one cup milk, two eggs, two teaspoons baking powder, butter size of an egg, beat the yolks of the eggs with the butter, then add the whites well beaten. Sift baking powder with the flour and mix all together into a batter. Bake in rings. Mrs. H. M.

## MUFFINS.

One quart of milk, three eggs, a pinch of salt, three teaspoons baking powder, butter size of a walnut (melted). Flour enough to make batter as thick as pound cake. Mrs. L. B. R.

## WHEAT OR GRAHAM MUFFINS.

Two coffee cups of sifted flour, two full teaspoons of baking powder, well mixed through the flour, one-half cup of butter rubbed into the flour and two eggs thoroughly beaten, one coffee cup of milk added at the last, with a little salt and sugar. Mrs. H. C. P.

## LAPLANDERS.

One pint of flour, one pint of sweet milk, two eggs beaten very light, one tablespoon butter and a little salt. Warm milk with butter in, beat yolks very light and add milk and flour gradually, putting in the whites last. Have pans *very* hot when batter is put in and bake at once. Mrs. M. E. S.

## WAFFLES—SWEET MILK.

Two cups sweet milk, four eggs beaten separately, three large tablespoons melted butter, three even teaspoons baking powder and a little salt. Flour to make batter rather stiffer than for griddle cakes. Mrs. L. E.

## "OWEN-DAH."

A Tennessee dish.—Boil one cup of corn meal grits (or crushed Indian) in water till dry and very tender. Let cool a little and then add a bit of butter, size of a hickory nut, one or two eggs, a little salt and milk enough to make a thick batter. Butter a stone-ware pudding-dish, pour in the mixture and bake about half an hour or until it is of a nice brown color. Eat hot for breakfast or tea. Miss A. M. G.

## WAFFLES.

One pint sour milk, three eggs, melted butter size of an egg, one teaspoonful of soda. Mix about as thick as griddle cakes.

MRS. C. M. P.

## CRUMB GRIDDLE CAKES.

Soak one pint of dry bread crumbs in sweet milk over night. In the morning, take one cup and a half of sour milk, half a teaspoon of soda, a little salt, and wheat flour to make a thin batter.

## FLANNEL CAKES.

One quart sour milk, sifted flour enough to make a pretty stiff batter, two eggs, a little salt. Just before baking add a small teaspoonful of soda.

MRS. R. A. M.

## BUCKWHEAT CAKES.

Half a cup of soft yeast, or one cake of bakers' yeast (soaked soft), equal parts of sweet milk and hot water, salt, make a thick batter. Keep in a cool place. Scald the jar once a week. Every night use equal parts of boiling water and sweet milk, salt and flour. Beat well at night, but do not stir them in the morning.

MRS. A. M. M.

## CORN MEAL GRIDDLE CAKES.

Two tablespoons of corn meal mixed up in milk enough to moisten, stand over night. In the morning take one cup of buttermilk, a small half-teaspoon of soda, a little salt, and wheat flour to thicken.

MRS. A. M. M.

## RICE GRIDDLE CAKES.

One cup boiled rice, one pint of flour, one teaspoonful salt, two eggs beaten light, milk to make an ordinarily thick batter.

MRS. A. A. J.

# Breakfast Dishes.

---

## CODFISH BALLS.

One teacup fish picked fine, two teacups potatoes boiled and mashed, scald the fish, drain dry, add potato, two eggs beaten separately. Drop with tablespoon into kettle of hot lard. Mrs. J. M. W.

## MEAT BALLS.

Chop cold beef or any kind of cooked meat, pepper, salt, and a very little flour, mix all together with an egg, and sometimes a little milk, form into balls or flat cakes, and fry in butter or lard.

Mrs. M. M. S.

## BEEF HASH, BAKED.

Chop one pound cold beef very fine, season with pepper and salt, a piece of butter the size of an egg, and a teacup of water. Stew all together for five minutes, stir in seven rolled crackers, roll the crackers very fine or you can use grated bread crumbs. Pour all in a buttered dish and bake twenty minutes in a hot oven. Lamb or veal is very nice prepared this way.

Mrs. J. F. M.

## A GOOD BREAKFAST DISH.

Cut eight or nine slices of liver quite thin and soak in salt and water an hour, drain and broil over a clear fire till well done and cut up in pieces about an inch square. To a lump of butter the size of an egg, add four tablespoons of hot water and plenty of pepper and salt to thoroughly season the liver, boil up and turn over the liver. Put in a covered dish to steam before serving. Mrs. H. C. P.

## FRIED BREAD.

Four eggs beaten light, one tablespoon flour, half pint of sweet milk. Dip bread in the batter and eat hot.

Beat six eggs with three tablespoons of cream, a little salt and pepper. Butter a hot spider, cook quickly, loosen at the edge often, and draw towards the centre, but do not turn the omelet until done and ready to turn on a hot plate. Serve quickly, as it becomes tough if it stands. Beat well.

Mrs. A. M. M.

## OMELET WITH RUM.

This is a most delicious omelet. Add a little sugar to the eggs, say a sherry glassful to six eggs, and make the omelet as a plain omelet. When turned on to the dish, sprinkle a little handful of sugar over the top, and pour over five or six tablespoonfuls of rum. Set it on fire, and serve it at the table burning.

## POACHED EGGS.

Drop them in boiling water and cook until the white is entirely done. After they are on the platter, season with butter, pepper and salt.

Mrs. G. E. F.

# Soups.

## SOUP STOCK.

Boil a soup bone the day before wanted. Boil gently from five to six hours, strain and cool in an earthen dish, skim the grease off the next day, keep in a stone jar in a cool place. In order to prepare soup, it is only necessary to heat some of the jelly. One can have a change of soup each day by adding different flavorings, such as tomatoes, onions, vermicelli, tapioca, spring vegetables, fried bread, celery, etc.

THE KEY TO THE CUPBOARD.

A shin of beef, five or six pounds, quart of water to each pound; place over the fire with a little salt, and stew gently until scum rises; skim it and boil slowly four hours, then add two heads of celery, a browned onion, parsley and thyme, a few cloves, boil an hour. When done, strain and put to cool, take off the grease that rises, return to soup pot, brown a crust of bread quite dark, put in with a little French mustard and pepper or curry powder if preferred; but must be used sparingly.

Let it boil four or five hours, put through a colander and add two hard boiled eggs cut in slices, and sliced lemon with a little wine or brandy added just before serving. It is nice to boil the pork by itself and put the water it has boiled in with the soup and then fry the pork and send to the table in the soup, cut in small pieces. All soup stock should be strained through a thin cloth so as to get all the part which forms the jelly, and add a red onion two hours before the soup is finished, as it imparts a nice color as well as flavors the soup. If you have not red onions, roast in the oven the kind you may have before putting in the stock.

MRS. W. M. M.

## NOODLE SOUP.

Use same stock as for any other soup, and drop in noodles slowly, and let cook five or ten minutes. Season with onion if preferred.

Buy twenty-five large, or fifty little neck clams, wash carefully and open with a knife, saving the liquor, drain from the liquor and chop, add when the rest is done, only letting it come to a boil, as boiling toughens the clams. The liquor improves it and may be added at first or at any time. Season to taste with salt and pepper. These quantities make a good sized soup tureen full. MRS. T. B. J.

## MULLIGATAWNEY SOUP.

Fry four sliced onions in three tablespoons of melted butter, then add four tablespoons of flour and stir until a rich brown. (If necessary to make it brown add more butter.) ## MAYONNAISE DRESSING.

Put the uncocked yolk of an egg into a cold bowl, beat it well with a silver fork, then add two salt-spoonfuls of salt and one of ground mustard; work them well a minute before adding the oil, pour in the oil very slowly alternated with a few drops of vinegar. When the sauce begins to have the consistency of jelly alternate a few drops of lemon juice with the oil. When the egg has absorbed a gill of oil, finish by adding a very little pinch of cayenne pepper and two teaspoonfuls of good vinegar. The process of making this dressing is greatly facilitated by placing the oil and egg on ice before using. If it curdles, beat another yolk in slowly.

# Cake.

---

## HELPS FOR MOTHERS.

### TO CURE EARACHE.

Sweet oil and laudanum heated quickly in a spoon over a gas jet or lamp and put on a little piece of cotton and inserted in the ear, will soon cure a sudden earache. Always cover the cotton with a fine, thin piece of linen or muslin, as the fuzz will get in the ear, and if applied often, will cause deafness. If the pain continues, a small dose of syrup of ipecac will relieve it. From ten to twenty drops—not enough to be an emetic.

### FOR A TEETHING CHILD.

Do not forget to give it at least one teaspoonful of water every day. When restless at night a few swallows of water may be just what is needed, and he will soon drop to sleep. If his skin is hot and dry, sponge him off with warm water containing a little soda, and it will have a soothing effect.

### FOR COLD IN CHEST AND WHEEZING OF THE BRONCHIAL TUBES.

Cut a piece of old soft muslin in the shape of a bib and baste cotton on this and let the child wear it next the skin over the chest, pinning it to the undergarment with nursery pins. Make a number of these, and when one is soiled replace with a clean one. When warmer weather comes and you wish to remove them, do so gradually by cutting a little off each day. Goose grease on chest is also good, but I never knew anything work so like a charm as the cotton batting did after a month of whooping-cough and severe colds. MRS. E. O. M.

### WASHING FLUID.

One-half ounce salts of tartar, one-half ounce of ammonia, one half ounce of borax, one box of concentrated lye. Pour over this mixture one gallon of boiling water. (Keep it in a jug.) To three pails of hot water use one-half teacup of this fluid. Let the clothes boil twenty minutes in this, after having stood a few minutes in cold water. Rub through *one* water, and rinse them. This fluid will not injure the clothes.

Miss C. W. K.

CAMPHOR ICE.

A cake of white wax melted with camphor gum (as much as will dissolve) and a few drops sweet oil. When melted together mould in dishes. When it is cold, it is ready to use, and is a very pure, nice ice for many purposes.

Mrs. T. C. D.

## TO TAKE OUT MILDEW.

Dissolve two ounces chloride of lime in one quart of boiling water, then add three quarts cold water, strain this through cloth. Soak mildewed spots four or five hours, and rinse *thoroughly*.

## TO SET BLACK DYE IN STOCKINGS.

One tablespoon turpentine to one quart water; soak in mixture for about three hours; rinse *thoroughly*.

## TO GET RID OF ANTS.

Charred egg shells laid on shelves (or wherever ants are) will exterminate the ants in a short time. Camphor will answer same purpose.

Miss A. D.

## GLOVE CLEANER.

One quart of deodorized benzine, one dram of sulphuric ether, one dram of chloroform, one dram of oil of wintergreen, two drams of alcohol.

## PICKLE FOR HAM.

Rub the hams well with salt, then pack in tub. To one hundred pounds take four gallons of water, seven pounds of salt; boil well and skim, when cold, add four ounces of saltpetre, one pint of molasses, and one pound of *brown* sugar, boil and skim. When cold put over the meat, and if not enough, add water to cover. Weight them heavy enough to keep them under the brine from four to six weeks.

## TO PREVENT THE SMELL OF BOILED CABBAGE.

Take a piece of bread, tie it up in a cloth, and place on top of the cabbage, while it is boiling.
